Besten, Mass., Oct. 14.—The notable feature of the local market today was the small amount of liquidation in face of the sharp break in London quotations for both stocks and metal. A few hundred shares of North Butte were pressed for sale at the opening but after that the offerings were small and the close was within a quarter of a point of Friday's. The demand for East Butte was good all day and it showed an advance of 4 point over the close of last week. All classes of coppers were well taken and the buying showed the strong posttion of the market. This war trouble should soon be over and both markets will do better.-Foster.
